# Testing guidelines

## GUIDELINES FOR TESTING

### Guidelines on television set testing

#### CompliantTV

This document was created to facilitate and harmonise testing of televisions regarding the requirements of the Ecodesign (Commission Regulation No 642/2009) and Energy Labelling Directives (Commission Regulation (EC) No 1062/2010). These guidelines shall serve as a fundament for television testing until a harmonised standard has been issued as requested in M/4771 and M/4952.
